COMPANY PROFILE

- **TEKSAI maintenance Free Gel Earthing System with 5 years warranty on the ohmic value for HT/LT installations like Transformer, LT panels, CNC machines, PLC, Generator, Neutral Earthing, etc. Specialized installation of less than 1 ohm earth resistance value for IT, defense equipment's, telecom BTS applications, etc. (TEKSAI - Cu /GI Earthing)**
- **ALLTEC advanced External Lightning Protection system - ESE (Early Streamer Emission) and conventional LPS for buildings, structures, microwave transmission towers, chimneys, etc. (ALLTEC - USA)**
- * **TeksoGel High Conductive Back Fill Compound specially developed for Maintenance Free Earthing System which is useful for Sandy, Rocky Soils & Other AI Sensitive Equipment. Ohmic value will be stable and long lasting. (Make : TEKSAI)**
- * **Exo Weld (Exothermic Welding System) for all electrical & electronic equipments Specially designed for Railway Track Weld, RDSO Earthing System, Signals & Other related applications like bonding of earthing, etc. Alltec Terra Fill (ALLTEC TF 50 XT) APPROVED BY RDSO AND DRDO - Especially for Railway and Defense.**
- * **The products cited as above have been tested and conforms to NFC & UNE Standard, CPRI and also has UL Certification. Apart from this, technical & project guidelines of Airport Authority, Railways, Industrial Consultants are in line with the above-mentioned products**
